# CASE STUDY

F-LON® 6060

NON STICK COATING IN THE CHEMICAL INDUSTRY

AT A GLANCE 

Industry: Chemical  
Product: Tubular sight  
glass

F-LON® 6060 is an  
excellent Non-Stick  
coating.

## THE CHALLENGE

The client needed to contain process chemicals in the event of accidental damage to the sight glass, preventing chemical attack or etching of the glass.

## THE SOLUTION

We coated the external surfaces of the sight glasses in a tough chemically resistant clear fluoropolymer non-stick release F-LON® 6060 extending the life of the equipment reducing downtime.

## BENEFITS

### **Benefit One**

Damage and etching of the sight glass prevented.

### **Benefit Two**

Life of the equipment extended and downtime reduced.
