

FLUOROCARBON

CASE STUDY

F-LON® 6120

NON-STICK COATING IN THE FOOD AND BEVERAGE INDUSTRY

AT A GLANCE 

Industry: Confectionary
Product: Chocolate tempering tank and stirrer

F-LON® 6120 is an excellent Non-Stick coating. It is a fluoropolymer based coating, which is normally applied in a single coat.

THE CHALLENGE

The client requested prevention of their product remaining in the tank and on ancillary equipment used during the tempering process. The desired outcome was to reduce wastage and increase production yield.

THE SOLUTION

We applied a Non-stick, FDA compliant, food safe and abrasion resistant coating F-LON® 6120 to allow maximum product removal to reduce cleaning times and increase product output.

BENEFITS

Benefit One

Reduced wastage and increased product yield.

Benefit Two

Reduced cleaning time.
