

# NORSOK M-710 APPROVAL

FLUOROCARBON ARE PLEASED TO ANNOUNCE WE HAVE BEEN AWARDED NORSOK M-710 APPROVAL FOR 10 OF OUR FLUORONOID MATERIALS.

The NORSOK M-710 specification underlines the need for oilfield equipment OEMs to achieve higher levels of quality and compatibility for non-metallic seals used in oilfield equipment.

Although this started with mainly Norwegian or European requests for NORSOK M-710 approved materials it has now extended across the globe, making NORSOK into an internationally recognized standard.
